Information Security Policy

03.01.2018

As Arpek, we aim to manage all kinds of risks to our business continuity and information assets;

- Documenting, certification and continually improving our information security management system to meet the requirements of ISO 27001 standard,
- Complying with all legal regulations and contracts related to information security,
- Systematically managing the risks to information assets, evaluating all unidentified documents as internal documents,
- It is our intention to work in an integrated manner with other management systems that we implement in order to realize trainings to improve technical and behavioral competencies in order to increase information security awareness.

A handwritten signature in blue ink, appearing to be "K. Y. Yılmaz".
