Occupational Health and Safety Policy

17.04.2018

As Arpek, it is our first priority to protect the health and safety of all employees without discrimination of suppliers, subcontractors and guests with the belief that correct and productive production can only be carried out in a healthy and safe working environment.

By creating an appropriate occupational health and safety management system to pass on this belief and primacy to life,

- To meet all legal and other obligations related to Occupational Health and Safety, employers should not adopt the principle that Occupational Health and Safety improvement activities are the common responsibility of all employees,
- A systematic approach to risk assessment and setting targets for participation at all levels of risk reduction activities,
- Achieve the resources needed to achieve the goals we have set and establish the continuity of implementation, carry out internal audits and necessary trainings,
- We are committed to achieving the goal of "Zero Work Accident" by continuously improving our business health and safety culture.

A handwritten signature in blue ink, appearing to read "Kerem Arpek".
